Minister of Interior and Parks Commissioner
Douglas on Inspection Tour of Jasper Park.

Accompanied by Howard Douglas, Dominion parks commissioner, the Hon. Frank Oliver left Edmonton by G. T. P. early this morning on a trip to Jasper park, the national reserve, 2,800 square miles in area, located at the entrance to the Jasper and Yellowhead mountain passes. The trip of G. T. P. is now laid to a point with in the park boundaries and it is possible to make the trip all the way by rail. In memory of the mountain and valley, lake and canyon, the Jasper park has far to surpass in interest the world-famous park at Banff. Hot springs, several dozen better than those of Banff, have been discovered on Fiddle Creek, a few miles from the main line of the G. T. P. The minister of the interior and the Dominion parks commissioner will spend several days in the Jasper park, returning to Edmonton on Wednesday of next week.

Seventeen Nations Send Ships to Take Part in Great
Review at Spithead Before King George and
Queen Mary Today.

Portsmouth, England, June 24.—This was a day of ships and smiles. The King and Queen, accompanied by representatives of the coronation fleet, arrived at Spithead at 10 a.m. to witness the great naval review of the century. The fleet, which was the largest ever assembled in the world, consisted of 170 ships, including 100 British vessels, and 70 foreign ships. The review was held in the Solent, a narrow strait between the Isle of Wight and the mainland of England. The ships were arranged in a line, and the King and Queen, seated in a royal barge, sailed along the line, inspecting the ships and the crews. The review was a magnificent display of naval power and discipline. The ships were all painted in their national colors, and the crews were at attention. The King and Queen were both smiling and looking at the ships with interest. The review was a great success, and the King and Queen were both very pleased with the result.

LATEST WORK IN HOTEL LUXURY

Grand Union Hotel Marks Another Stage in Vancouver's Progress as it is to be Date Metropolis, Opens Monday Next.

City can be judged by the hotels. Every city has both first, second and third rate hotels, but there is always a constant movement on foot to illuminate the latter class.

The movement has reached Vancouver, and the completion of the new Grand Union hotel at 22 Hastings street, west, marks a step in the right direction.

Situated in the center of the business section, the Grand Union hotel offers many conveniences to the commercial traveler as well as to tourists.

The new hotel which will be completed and opened for occupancy next Monday contains 162 rooms, exclusively furnished, with every modern convenience such as a telephone in each room, hot and cold water, and electric light, all of which tend to make the hotel pleasant for its guests.

The present location of the Grand Union, Moore, L. P. Chouin and Mr. L. DeFehr have both had wide experience as business men, the former having been in the hotel business in Detroit and Edmonton, while Mr. DeFehr for several years has been in the lumber business in Carleton Place, Ontario, Alta.

One of the noticeable features respecting the Grand Union is the large airy dining room.

The woodwork throughout the hotel is beautifully finished and everything tends to make it one of Vancouver's most desirable.

The Grand Union has in its construction, efficiency, modernity and

RUSHING N.R. TOWARDS WEST

Hon. Mr. Oliver says Co. Expects to Finish 150 Miles West this Summer

Hon. Mr. Oliver, Minister of the Interior, came to the city yesterday morning from the south of the prairie. Today in company with Hon. J. D. McCreary, Superintendent of Indian Affairs, he will leave for the G.T.P. as far as Edmonton and then by train to the Transcontinental division point of the Transcontinental west of Edmonton. This train will be the first to leave for the west, and it is expected that Mr. Oliver will look over the country on his way west, returning in the early part of next week. On Thursday, June 29th, he will speak with Mr. Clark at a picnic near Olds and on Saturday will open the Calgary fair on Wednesday of the following week. He is expected to speak at Athabasca Landing.

Speaking in the Bulletin the Minister stated during the past three weeks he had addressed twelve meetings in the west, lecturing at several, and traveling largely in his speech with the question of the future of the prairie provinces as his theme.

The fact I might say that he had found to be already in favor of the settlement of the prairie provinces.

Prospect of an Early Election. Can you give any information as to the probability of an election soon? Mr. Oliver was asked.

The Government desires an election until after the reorganization of the cabinet but an early election may be forced by the House of Commons.

It would be a great injustice to the western people, he said, to deprive them of the already deferred reorganization of the cabinet.

Railway Construction. Questioned with regard to railway construction, Mr. Oliver stated that the Canadian Northern Railway company would have the grade of 150 miles of their main line west of Edmonton towards the Yellowhead completed in the near future.

One of the noticeable features respecting the Grand Union is the large airy dining room.

The woodwork throughout the hotel is beautifully finished and everything tends to make it one of Vancouver's most desirable.

Million Dollars for Sand.

Summer Styles in Hair-Dressing

THE late reaction to plain styles in hair-dressing is decidedly gratifying to almost everyone. Many went to extremes in elaborating their coiffures and the styles were exaggerated until they became grotesque.

The prevailing idea of simplicity, coolness and comfort is well illustrated by the accompanying model. The hair is waved with side or centre parting extending well back to the crown. Part the hair from the crown to a point well behind the ears and tie the back portion. The front hair is brought back loosely and softly, dropping well over the ears. The back hair is divided into three sections, each strand being formed into a loose figure eight. These coils are pinned flat, close to the head and low in the neck.
